Hickman's prospects for a great forward movement for the present year are indeed rosy. The Hickman Industrial League has plans well unger way for the location of four good factories on their property east of town. Another concern is figuring on locating a factory in West Hickman that will employ about 200 men, and local capitalists and boosters are "rearing to go." Our new fund proposition is in force, and fac- levees, railroads, boat lines, resinot, go out of town.
